정렬 (대학원생) 한태준 (컴퓨터공학과) <taejoon.han@unist.ac.kr>

Dear Taejoon,

We are delighted to inform you that your paper, "Representation-Aware Modularity with a Distance-Calibrated Null Model," has been accepted for presentation at CIKM 2026.

This year, CIKM received and reviewed a larger volume of papers, with 2,216 submissions and 597 accepted papers, resulting in an acceptance rate of 27%.

We will inform you in a separate email whether your paper has been selected for oral or poster presentation, along with detailed instructions for preparing your presentation. No action is needed on this point for now.

All submissions underwent a careful and thorough evaluation by the Program Committee. 97.6% of submissions received at least three reviews. For submissions with fewer than three reviews, the assigned Senior PC member carefully read the paper and made an informed assessment.

Please carefully consider the reviewers' comments and the meta-review when preparing your final version. The deadline for camera-ready submission and author registration is August 23.

The proceedings chairs, Jian Kang and Simone Merlo, will send a separate email with detailed camera-ready instructions.

We warmly welcome you to join us in Rome, Italy, for CIKM 2026, and look forward to seeing your work presented at the conference.

Congratulations again.

Best regards,

Fabrizio, Ioana, Jiaxin, Vanessa
The CIKM 2026 Program Chairs

PS: We apologize for sending this repeatedly. We wrongly typed the macros in the template email.

SUBMISSION: 19

TITLE: Representation-Aware Modularity with a Distance-Calibrated Null Model
